EDUCATION

Mechanical Engineer, P.E., B.S. in Mechanical Engineering, University of Arizona, 1960

In 1975, Mr. Augspurger entered private practice as a Consulting Mechanical Engineer. His broad background allows his offering a wide range of highly technical, yet practical, engineering. He has been directly involved with the basic design of material handling equipment, agricultural machinery, high pressure liquid and gas systems, cargo tankers, pressure vessels and special tooling and machinery for manufacturing.

Mr. Augspurger has been on the faculty of the College of Architecture at Arizona State University instructing Industrial Mechanical Design courses. He also has appeared as an expert witness involving litigation in mechanical systems.

PROFESSIONAL REGISTRATION

State of Arizona, Mechanical Engineer #10315

State of Arizona, Land Surveyor #16782

State of California, Mechanical Engineer #M21114

Department of Transportation, Tanker Design Certifying Engineer, Federal #CT-0089
